

GBIS Colocation Solutions

GBIS offers several levels of colocation service in our new business class colo. Colocation is a cost-effective way to take full advantage of our connections to the Internet, without incurring expensive telephone company charges. If you colocate, your own servers are placed in our secure business data center, and directly connected to our network.

INCLUDED SERVICES:

All Great Basin Internet Services colocation offerings include:

- Space for your 19" rack-mounted equipment in our secure data center
- Generator Backup Power
- Environmental Monitoring
- 24x7 monitoring of your equipment

Note: Each rack unit is 1.75" of rack space. We use 19" wide racks.

BANDWIDTH *

Bandwidth available as low as \$65.00 per 1 mbps. *Need large amounts of bandwidth? Call for a customized quote and volume discounts! Multi Carrier Access!*

GBIS TECHNICAL SUPPORT

The Great Basin Internet Services Network Operations Center (GBIS NOC) will be available twenty-four (24) hours per day seven (7) days per week. The GBIS NOC will generate text page notification to the customer of any incident and proceed with appropriate activity.
