

GBIS Residential VoIP Solutions

Great Basin Internet Services' Residential Voice over IP (VoIP) Solutions are customized to meet your unique needs and reduce your telecommunications costs. These services are provided over an advanced digital network and offer premier quality and reliability. With our competitive pricing and personalized service, GBIS's Residential VoIP Solutions deliver real value and creative solutions for your home.

AVAILABLE FEATURES

Free Nationwide Long Distance – Make a call anywhere in the continental United States with *No Long Distance Fees!*

Voice Mail – Each line can have a voice mailbox. Voice mail may be retrieved locally, from any telephone or forwarded to an email address.

Call Waiting – Allows you to accept a second call while you are already on the line.

Call Forwarding Immediate - All incoming calls are sent to another specified number.

Call Forwarding on No Answer - Incoming calls are forwarded to another specified number when your line is not answered.

Caller ID - When available your phone will show you the name and number of the calling party.

3-Way Calling - You can simultaneously speak with two other parties.

PRICING

NOTE: You must have GBIS broadband Internet service to qualify. That is, the service is not available to dialup customers. GBIS Residential VoIP is available throughout the GBIS service area.
